**English as an Additional Language or Dialect (EAL/D) Level 1 is designed for learners who need to develop their use of Standard Australian English (SAE) language skills for speaking, reading and writing**

SAE refers to the variety of spoken and written English language in Australia used in more formal settings such as for official or public purposes, and recorded in dictionaries, style guides and grammars. While it is always dynamic and evolving, it is recognised as the 'common language' of Australians. There is a focus on developing oral communication skills and the ability of the learner to express their needs, opinions and ideas in order to communicate effectively, and to participate in life in Australia. Learners may be new arrivals to Australia, recent refugees, or other learners for whom English is a second or additional language or dialect.

## Course Description

This course develops learners' skills to respond to oral, written and multimodal texts, and to create oral, written and multimodal texts.

Texts are used to develop vocabulary, grammar, language learning strategies and understanding.

Texts are used to develop the skills of comprehension and the ability to identify key information and meaning.

Learners will create their own texts to be used for specific purposes, including the expression of their needs, opinions and ideas.

Texts for EAL/D Level 1 are to be simple in nature. Simple texts are those that are familiar and have a clear purpose. Simple texts use commonly known words and commonly used abbreviations.

## Rationale

English as an Additional Language or Dialect (EAL/D) Level 1 is designed for learners who need to develop their use of **Standard Australian English (SAE)** language skills for speaking, reading and writing. SAE refers to the variety of spoken and written English language in Australia used in more formal settings such as for official or public purposes, and recorded in dictionaries, style guides and grammars. While it is always dynamic and evolving, it is recognised as the 'common language' of Australians.

There is a focus on developing oral communication skills and the ability of the learner to express their needs, opinions and ideas in order to communicate effectively, and to participate in life in Australia.

Learners may be new arrivals to Australia, recent refugees, or other learners for whom English is a second or additional language or dialect.

## Learning Outcomes

On successful completion of this course, learners will be able to:

1. identify the main ideas and information in simple texts
2. respond to simple text and form their own opinions
3. create short, simple texts in oral, written and multimodal\* forms \*Multimodal: a combination of two or more communication modes (for example print, image, and spoken text, as in a film or computer presentation)
4. express their ideas about familiar, everyday topics.

*\* Multimodal: a combination of two or more communication modes (for example print, image, and spoken text, as in a film or computer presentation)*

## Access

Access to this course is restricted to learners:

- for whom English is a second language or an additional language or dialect; and
- who have had no more than a total of six years of formal education in a school where English is the major language of instruction; and
- who have been resident in Australia for no more than six calendar years immediately before January 1 of the year in which this course is to be taken.

Providers may make an application to TASC requesting a partial relaxation of the restrictions noted above, on an individual learner basis. Possible grounds for an application would be to cater for a learner who: has experienced severely interrupted schooling; has experienced trauma or other forms of memory impairment due to Post Traumatic Stress Disorder (for example); or who is a humanitarian refugee and for whom this course is the most appropriate and beneficial. Click for [more information and an Application Form](#).

This course requires learners to work in small groups.

## Pathways

Successful completion of this course may lead to a variety of senior secondary courses which may include English as a Second Language or Dialect (EAL/D) Level 2 and Level 3 and vocational education and training qualifications.

## Resource Requirements

Learners will need periodic access to digital technology such as computers.

## Course Size And Complexity

This course has a complexity level of Level 1.

At Level 1 the learner is expected to carry out tasks and activities that draw on a limited range of knowledge and skills. The tasks and activities generally have a substantial repetitive aspect to them. Minimum judgement is needed as there are usually very clear rules, guidelines or procedures to be followed. VET competencies at this level are often those characteristic of an AQF Certificate I.

This course has a size value of 15.

**Course Requirements**

This course is in three (3) parts. Each part must be completed. Parts can be delivered in any order.

It is recommended that providers design programs of study that combine/concurrently deliver all three parts.

## Course Content

  - common cultural gestures and behaviours
  - appropriate eye contact
  - acknowledging the speaker
  - taking turns in group discussions
  - politely entering and exiting conversations
  - maintaining an appropriate distance from others while in conversation
- sending and responding to simple\* email and SMS communication in SAE
- using common protocols in social situations such as visiting or dining.

*\*simple email is that which is intended for a single recipient and has no attachments*

### PART B COMPREHENSION SKILLS AND STRATEGIES

Learners will:

- show they understand the main content of the texts by “retelling”
- show they understand the main meaning of texts by providing appropriate answers to questions
- use dictionaries (text based and picture) and bilingual resources to assist understanding of text
- read and understand text presented in a range of forms
- listen to text presented in a range of forms *e.g. a speech, a commentary, a script*
- use simple graphic organisers\* to show what they have understood from text
- talk about how they have interpreted text
- ask others about their interpretation of text and note any differences
- interpret non-verbal behaviours and cues, to guess the meaning of what is being communicated to them by others
- use familiar/ known words and morphemes\*\* to help gain meaning from texts
- use basic research skills as directed, to find information in texts.

*\* graphic organisers may include: mind map; fishbone; spider-chart; idea wheel; tables; flowchart; & timeline.*

*\*\* the lowest unit of language that can convey meaning such as “child”, “shed”, “walk”. You cannot break a morpheme down into anything smaller that has a meaning. Many simple words are morphemes.*

- write content in a way that achieves “flow” for the reader or the listener
- write in a form that presents the content clearly to the reader or the listener
- improve their text by editing and refining drafts with teacher support
- present information using simple graphic organisers
- use appropriate word processing technology and presentation equipment such as *computers, electronic white-boards, digital projectors (where available)*.

## Work Requirements

### PART A WORK REQUIREMENTS

Learners must engage in **at least six** communication experiences, two of which must be with an individual (*e.g. a teacher, an aide, a mentor*) and two of which must be in a group situation (*e.g. small group discussion, class activity, cultural group gathering*).

### PART B WORK REQUIREMENTS

Learners must demonstrate their comprehension skills in response to **at least six texts**, two of which must be written, and two of which must be oral text.

### PART C WORK REQUIREMENTS

Learners must create **at least six** texts in a range of modes of their choice but including at least one written, at least one oral, and at least one multimodal.

## Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating ‘A’, ‘B’, or ‘C’, according to the outcomes specified in the standards section of the course.

A ‘t’ notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the ‘C’ rating.

A ‘z’ notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in quality assurance processes specified by TASC to ensure provider validity and comparability of standards across all awards. To learn more, see TASC's [quality assurance](#) processes and [assessment](#) information.

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

## Quality Assurance Process

The following process will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

**Process** – TASC will verify that the provider's course delivery and assessment standards meet the course requirements and community expectations for fairness, integrity and validity of qualifications TASC issues. This will involve checking:

- learner attendance records; and
- course delivery plans (the sequence of course delivery/tasks and when assessments take place):
  - assessment instruments and rubrics (the 'rules' or marking guide used to judge achievement)
  - class records of assessment
  - examples of learner work that demonstrate the use of the marking guide
  - samples of current learner's work, including that related to any work requirements articulated in the course document.

This process may also include interviews with past and present learners. It will be scheduled by TASC using a risk-based approach.

## **Course Evaluation**

The Department of Education's Curriculum Services will develop and regularly revise the curriculum. This evaluation will be informed by the experience of the course's implementation, delivery and assessment.

In addition, stakeholders may request Curriculum Services to review a particular aspect of an accredited course.

Requests for amendments to an accredited course will be forwarded by Curriculum Services to the Office of TASC for formal consideration.

Such requests for amendment will be considered in terms of the likely improvements to the outcomes for learners, possible consequences for delivery and assessment of the course, and alignment with Australian Curriculum materials.

A course is formally analysed prior to the expiry of its accreditation as part of the process to develop specifications to guide the development of any replacement course.
