You, Your Family and the Community Level 1 is designed to enhance learners' life skills by developing their understanding of social issues relating to the world in which they live

The course focuses on issues relating to themselves and their family within a community. Learners will develop awareness of their community as well as the role they, as individuals, and their families play in it.

Course Description

You, Your Family and the Community develops knowledge about the individual, family and community organisation and interaction. The optional units provide the opportunity to focus on areas of most interest or need for a particular group, while still relating these to family and community dynamics.

All units are presented using an issues-based approach, with the main focus being on how specific issues can affect the individual's personal development and relationships with their families and the broader community.

For the purposes of this course, an 'issue' is understood to be a topic or problem of interest or concern to be investigated and discussed.

The learning will have a practical emphasis.

Rationale

You, Your Family and the Community Level 1 is designed to enhance learners' life skills by developing their understanding of social issues relating to the world in which they live. The course focuses on issues relating to themselves and their family within a community. Learners will develop awareness of their community as well as the role they, as individuals, and their families play in it.

Learning Outcomes

On successful completion of this course, learners will be able to:

1. identify roles and functions of both families and communities
2. identify issues affecting themselves, their families and community
3. list community organisations that meet specific needs
4. collate and organise information into simple categories
5. convey information relating to themselves, their families and community
6. communicate information on a range of issues relating to individuals, families and communities
7. outline how issues impact on themselves, their family and the community
8. complete aspects of tasks in agreed timeframes
9. review own performance in relation to tasks.

Pathways

You, Your Family and the Community provides a pathway to other Level 2 courses such as Working with Children and Introduction to Sociology and Psychology.

Course Size And Complexity

This course has a complexity level of 1.

At Level 1, the learner is expected to carry out tasks and activities that draw on a limited range of knowledge and skills. The tasks and activities generally have a substantial repetitive aspect to them. Minimum judgement is needed as there are usually very clear rules, guidelines or procedures to be followed. VET competencies at this level are often those characteristic of an AQF Certificate I.

This course has a size value of 5.

Relationship To Other TASC Accredited And Recognised Senior Secondary Course

This course is designed to be taught as a single, standalone course. However, it also links effectively with a number of other Level 1 courses such as Personal Care and Financial Literacy.

Course Delivery

Each unit may be taught discretely or using an integrated approach whereby several units can be taught concurrently.

Suggested times are an indication only.

Course Requirements

Effective coverage of the content of this course requires some practical engagement with the local community, for example visits to and/or engagement with community organisations and services.

Work Requirements

Learners will undertake research on one (1) issue from Section A (Compulsory Units) and one (1) issue from Section B (Optional Units). Research findings may be presented in any of the following formats:

- A3 poster featuring text and pictures (e.g. an advertisement for a community event)
- a pamphlet for a community organisation
- 2 page negotiated study
- 2 minute PowerPoint
- 2 minute oral presentation
- short multimodal presentation.

Each of the two presentations will be made in a different format.

Learners will undertake reviews of their performance in completing assigned tasks. This may involve:

- discussing work/finished task with teacher
- comparing features of own completed task with the task as directed.

Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating of 'C' (satisfactory standard) according to the outcomes specified in the standards section of the course document.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating. The 't' notation is not described in course standards.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in quality assurance processes specified by TASC to ensure provider validity and comparability of standards across all awards. To learn more, see TASC's [quality assurance](#) processes and [assessment](#) information.

Internal assessment of all criteria will be made by the provider. Assessment processes must gather evidence that clearly shows the match between individual learner performance, the standards of the course and the learner's award. Providers will report the learner's rating for each criterion to TASC.

Quality Assurance Process

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by individual learners
- community confidence in the integrity and meaning of the qualification.

Process

TASC will verify that the provider's course delivery and assessment meet the course requirements and community expectations for fairness, integrity and validity of qualifications TASC issues. This will involve checking:

- Provider standard 1: scope and sequence documentation:
 - course delivery plan
 - course assessment plan, assessment matrix
- Provider standard 2: student attendance records
- Provider standard 3: examples of assessments tools and instruments and associated rubrics and marking guides
- Provider standard 1 and 3: examples of student work including that related to any work requirements articulated in the course document
- Provider standard 4: class records of assessment

This process will be scheduled by TASC using a risk-based approach.

Criteria

The assessment for You, Your Family and the Community Level 1 will be based on the degree to which the learner can:

1. identify issues relating to individuals, families and communities
2. engage with community organisations
3. communicate information about a range of issues relating to individuals, families and communities
4. complete activities and tasks

Standards

Criterion 1: identify issues relating to individuals, families and communities

The learner:

Rating C

Course Evaluation

The Department of Education's Curriculum Services will develop and regularly revise the curriculum. This evaluation will be informed by the experience of the course's implementation, delivery and assessment.

In addition, stakeholders may request Curriculum Services to review a particular aspect of an accredited course.

Requests for amendments to an accredited course will be forwarded by Curriculum Services to the Office of TASC for formal consideration.

Such requests for amendment will be considered in terms of the likely improvements to the outcomes for learners, possible consequences for delivery and assessment of the course, and alignment with Australian Curriculum materials.

A course is formally analysed prior to the expiry of its accreditation as part of the process to develop specifications to guide the development of any replacement course.
