Community Service Learning allows learners to explore and experience the real world of community engagement and outreach

Learners will develop an understanding of their community and develop planning, organisational and leadership skills through social action. Community Service Learning encourages learners to be proactive members of their community by contributing in a range of relevant, tangible and meaningful community service activities, locally, nationally or internationally.

Course Description

This course combines community service with academic learning, focusing on critical, reflective thinking and personal and civic responsibility. It involves learners in activities that address community service needs, while developing their academic skills and commitment to their community. Learners complete at least thirty hours of unpaid service experience, with one or a number of community service providers, and reflect upon their experience, its current and future impact, and the implications for life-long learning through meeting the course requirements.

Rationale

Community Service Learning allows learners to explore and experience the real world of community engagement and outreach. Learners will develop an understanding of their community and develop planning, organisational and leadership skills through social action. Community Service Learning encourages learners to be proactive members of their community by contributing in a range of relevant, tangible and meaningful community service activities, locally, nationally or internationally. The course supports Australian Curriculum: *Civics and Citizenship* and recognises the emphasis of the *Melbourne Declaration on Educational Goals for Young Australians* (2008) to develop socially aware, active and decisive citizens. Community Service Learning requires learners to reflect on their own beliefs, values and attitudes through exploring issues concerning social justice.

Learning Outcomes

On successful completion of this course, learners will be able to:

1. plan and organise volunteer placements
2. apply knowledge of community service organisations and associated activities, social issues and social justice through engaging with public and/or private organisations which provide assistance and advocacy
3. apply understanding and appreciation of the value of contributing to the welfare of others in local, regional, national and/or international communities
4. effectively communicate ideas and information
5. apply group/teamwork skills
6. use information and evidence, apply knowledge and solve problems through collaboration and negotiation
7. apply personal attributes such as acceptance of diversity, and clarify and reflect on their own beliefs, values and attitudes through exploring issues concerning social justice.

Course Size And Complexity

This course has a complexity level of 2.

At Level 2, the learner is expected to carry out tasks and activities that involve a range of knowledge and skills, including some basic theoretical and/or technical knowledge and skills. Limited judgement is required, such as making an appropriate selection from a range of given rules, guidelines or procedures. VET competencies at this level are often those characteristic of an AQF Certificate II.

This course has a size value of 5.

Course Requirements

Learners are formally connected to adults associated with and/or working for community service providers who operate as a supervisor (who will provide expertise, guidance and support) during the community service learning. Supervisors are required to have a current Working with Vulnerable People (WWVP) registration. The Provider will provide a Community Service Learning (CSL) Coordinator who will liaise between the Provider and the Community Service Organisation(s).

As the majority of this course will be undertaken in the community, providers are required to coordinate and facilitate this process.

Work submitted for assessment must be produced over the duration of one calendar year, be unique to this course and not be work submitted for assessment in any other course.

Role of Supervisor: an individual or individuals at the Community Service Organisation (CSO) who is responsible for providing expertise, guidance and support to the learner. The CSO is responsible for appointing the Supervisor who is acting on behalf of the CSO. The Supervisor must have a WWVP registration.

Role of CSL Co-ordinator: an individual within the school/college Provider who is responsible for course provision and approving placements and will not necessarily be the teacher.

Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating 'A', 'B', or 'C', according to the outcomes specified in the standards section of the course.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in quality assurance processes specified by TASC to ensure provider validity and comparability of standards across all awards. To learn more, see TASC's [quality assurance](#) processes and [assessment](#) information.

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

Quality Assurance Process

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

Process - TASC will verify that the provider's course delivery and assessment standards meet the course requirements and community expectations for fairness, integrity and validity of qualifications that TASC issues. This will involve checking:

- learner attendance records; and
- course delivery plans (the sequence of course delivery/tasks and when assessments take place):
 - assessment instruments and rubrics (the 'rules' or marking guide used to judge achievement)
 - class records of assessment
 - examples of learner work that demonstrate the use of the marking guide
 - samples of current learner's work, including those related to any work requirements articulated in the course document.

This process may also include interviews with past and present learners. It will be scheduled by TASC using a risk-based approach.
