The study of Italian contributes to the overall education of learners, particularly in the areas of communication, intercultural understanding and general knowledge

Through studying Italian, learners gain access to Italian-speaking communities in Italy and across the world, including Australia. The ability to communicate in Italian will (in conjunction with other skills acquired in the study of this course) provide learners with enhanced vocational opportunities and the possibility to apply Italian culture and language skills to work, further study, training or personal interests. This course builds on Italian - Foundation and provides a pathway to the study of Italian at university level.

Course Description

Learners will use Italian to communicate with others by:

- listening and responding to spoken Italian
- communicating in spoken Italian
- reading and responding to written Italian
- expressing ideas and information in written Italian.

This is done within a contextual framework of three prescribed themes:

1. The individual
2. Italian-speaking communities
3. The changing world.

These themes, and their topics and sub-topics, have been selected to enable learners to develop their understanding of how language and culture are inter-related.

The themes have a number of topics and sub-topics. The placement of the topics under themes is intended to provide a particular perspective for each of the topics. The sub-topics expand on the topics and guide the learner and teacher as to how the topics may be treated.

It is not expected that all themes and topics will require the same amount of study time. The length of time and depth devoted to each topic will vary according to the linguistic needs and interests of the learner.

The learner will negotiate **at least one** topic drawn from the themes and their topics/sub-topics for more detailed study.

Rationale

The study of Italian contributes to the overall education of learners, particularly in the areas of communication, cross-cultural understanding, and general knowledge. It provides access to the culture of Italian and Italian-speaking communities. The study promotes understanding of different attitudes and values within the wider Australian community and beyond.

The language to be studied and assessed is the modern standard or official version of Italian.

Learning Outcomes

On successful completion of this course, learners will be able to:

1. use Italian to communicate with others by listening and responding to spoken Italian
2. use Italian to communicate with others by communicating in spoken Italian
3. use Italian to communicate with others by reading and responding to written Italian
4. use Italian to communicate with others by expressing ideas and information in written Italian
5. interpret Italian customs and traditions, and the cultural context in which Italian is used
6. critically reflect on their own culture through the study of Italian culture
7. use Italian as a language system
8. make connections between English and another language
9. apply negotiation, planning and organisational skills.

Access

This Level 3 course is designed for learners who have successfully completed Italian – Foundation Level 2 or its equivalent.

Pathways

Italian – Foundation Level 2 provides a pathway to this course.

This course provides a pathway to the study of Italian at tertiary level, and to various vocational education and training (VET) packages that include language components/units of competency.

Course Size And Complexity

This course has a complexity level of 3.

At Level 3, the learner is expected to acquire a combination of theoretical and/or technical and factual knowledge and skills and use judgement when varying procedures to deal with unusual or unexpected aspects that may arise. Some skills in organising self and others are expected. Level 3 is a standard suitable to prepare learners for further study at tertiary level. VET competencies at this level are often those characteristic of an AQF Certificate III.

This course has a size value of 15.

USE OF ENGLISH

While it is expected that learners will study a range of oral and written texts in Italian, it may be appropriate in some circumstances to select texts using English. Equally, it may be appropriate for a learner to respond to a text in English on some occasions.

Note: at its meeting on 3 April 2013, TASC decided that from 2014 the examination specifications for all Level 3 language courses would include use of the target language in responses in the reading section of the written examination.

TEXT TYPES

The learner will be expected to be familiar with a variety of text types. Text types indicated with an asterisk (*) are those that the learner may be expected to produce in the external examination of this TASC Level 3 course. Teachers may introduce the learner to a wider range of text types in the course of their teaching and learning program:

VOCABULARY

While there is no nationally prescribed vocabulary list, it is expected that learners will be familiar with a range of vocabulary and idioms relevant to the themes described in the course.

DICTIONARIES

Teachers will assist learners to develop the necessary skills and confidence to use dictionaries effectively. For details regarding the use of dictionaries in the external assessment of this course, see '[What can I take to my exam?](#)'.

GRAMMAR AND STRUCTURES

Grammar can be referred to as the organisation of, and relationship between, all the elements that constitute a language as it functions.

There are many different theories of grammar, and a number of different approaches towards its teaching and learning. The categories used below are not intended to promote any particular theory of grammar, or to favour one methodology over another.

In this Level 3 course it is assumed that the learner will already have acquired a significant understanding of the function of grammar in Italian through prior knowledge or study of Italian.

Developing the learner's ability to convey meaning effectively in a range of contexts will, however, necessarily involve extending awareness of the system of structures underlying the language, as well as the ability both to apply and adapt this knowledge.

The following grammatical structures are those that the learner is expected to recognise and use.

Work Requirements

From their study of these themes and related topics/sub-topics learners will undertake **at least one** substantial assessment task (approximately 1000 words or equivalent). The mode of presentation is not prescribed. It may be a written report, an oral report or presentation, or a multimodal* presentation. The task will be assessed internally, and will be a significant source of evidence for the assessment of the Learning Outcomes, 'gain a detailed understanding and appreciation of Italian customs and traditions, and the cultural context in which Italian is used' and 'critically reflect on their own culture through the study of Italian culture' (criterion 5) and criterion 6.

While the report/presentation of the assessment task may be in English, Italian should be used as appropriate (for example, when discussing Italian concepts, using direct quotations from sources in Italian, or referring to Italian terms).

Learners will negotiate the task with their teacher. While not prescribed, the nature of the task will be one that engages the learner in critical reflection and that provides opportunities to present reasoned arguments/points of view and analysis. An issue-based approach is more appropriate than one that is purely descriptive in nature. For example, an activity or topic might be framed as a question such as:

- 'In what ways, and to what extent, has Italian culture influenced Australian culture?'
- 'Compare and contrast
 - the lyrics and music of a popular Italian song with the lyrics and music of a popular Australian song
 - or
 - the front page of a Italian newspaper with the front page of an Australian newspaper
 - or
 - a popular Italian television show with a popular Australian television showWhat do these similarities and differences tell us about the two cultures?'
- 'In what ways, and to what extent, have Italian-speaking communities in Australia contributed to our multicultural society?'
- 'Compare and contrast the role of sport/art/performing arts in Italian and Australian society. How might the similarities and differences be explained?'
- 'Compare and contrast contemporary daily life in Italian and Australian society. How might the similarities and differences be explained?'

**Multimodal: a combination of two or more communication modes (for example print, image, and spoken text, as in a film or computer presentation).*

Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating 'A', 'B', or 'C', according to the outcomes specified in the standards section of the course.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in quality assurance processes specified by TASC to ensure provider validity and comparability of standards across all awards. To learn more, see TASC's [quality assurance](#) processes and [assessment](#) information.

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

TASC will supervise the external assessment of designated criteria which will be indicated by an asterisk (*). The ratings obtained from the external assessments will be used in addition to internal ratings from the provider to determine the final award.

Quality Assurance Process

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards for achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

Process – TASC gives course providers feedback about any systematic differences in the relationship of their internal and external assessments and, where appropriate, seeks further evidence through audit and requires corrective action in the future.

External Assessment Requirements

The external assessment requirements for the course Italian Level 3, consists of:

- an oral examination; and
- a written examination.

The criteria to be externally assessed are 1, 2, 3, and 4.

For details regarding the use of dictionaries in the external assessment process see '[What can I take to my exam?](#)'.

Note: at its meeting on 3 April 2013, TASC decided that from 2014 the examination specifications for all Level 3 language courses would include use of the target language in responses in the reading section of the written examination.

For further information see the TASC's *External Assessment Guidelines* for this course which can be found in the Supporting Documents below.

Course Evaluation

The Department of Education's Curriculum Services will develop and regularly revise the curriculum. This evaluation will be informed by the experience of the course's implementation, delivery and assessment.

In addition, stakeholders may request Curriculum Services to review a particular aspect of an accredited course.

Requests for amendments to an accredited course will be forwarded by Curriculum Services to the Office of TASC for formal consideration.

Such requests for amendment will be considered in terms of the likely improvements to the outcomes for learners, possible consequences for delivery and assessment of the course, and alignment with Australian Curriculum materials.

A course is formally analysed prior to the expiry of its accreditation as part of the process to develop specifications to guide the development of any replacement course.

Expectations Defined By National Standards

This course document includes materials consistent with the Collaborative Curriculum and Assessment Framework for Languages (CCAFL).

Accreditation

The accreditation period for this course is from 1 January 2022 to 31 December 2023.

During the accreditation period required amendments can be considered via established processes.

Should outcomes of the Years 9-12 Review process find this course unsuitable for inclusion in the Tasmanian senior secondary curriculum, its accreditation may be cancelled. Any such cancellation would not occur during an academic year.
