**Visual Art Level 2 is a course for learners who would like to engage with a specific visual art studio from the available selection offered by their provider, and it may also prepare them for Visual Art Level 3**

Learners will undertake arts practice in a studio area and learn specialised skills, techniques and knowledge. Methods and processes specific to the studio of choice are explored so that students develop visual literacy skills: the ability to interpret and make meaning from information presented in images; technical skills, and knowledge and understanding of traditional, modern and contemporary art forms. Learners begin to develop skills in the research, analysis, and criticism of art from different social, historical and cultural contexts and learn to express and identify meaning in artworks. Study of Visual Art Level 2 promotes innovation and creative and critical thinking skills, persistence and self-direction, all of which help prepare learners for their future.

## Focus Area

### Discipline-based study

Courses aligned to the [Years 9 to 12 Curriculum Framework](#) belong to one of the five focus areas of Discipline-based study, Transdisciplinary projects, Professional studies, Work-based learning and Personal futures.

*Visual Art* Level 2 is a Discipline-based study course.

Discipline-based study includes content, core concepts and big ideas; enabling deep knowledge and understanding of the content and the application of what is learned. Learners consider accepted key disciplinary knowledge, apply distinctive ways of thinking and become increasingly independent learners. They use methodologies specific to the discipline to explore and strengthen their understanding of key concepts and develop deep knowledge, skills and understanding.

Discipline-based study courses have three key features that guide teaching and learning:

- specialist knowledge
- theories and concepts and
- methodology and terminology.

In this course learners will do this by:

- focusing on a studio area requiring specialised skills, techniques, knowledge and history
- learning the concepts and theories that underpin their chosen studio area and the arts more generally, including the concept that visual arts can express both personal and cultural ideas
- using and applying the appropriate methodologies and terminology in their artmaking and art responses. These include methodologies such as experimenting and refining, and specialised terms such as artistic conventions.

## Rationale

Art is an intrinsic human activity and people have made and responded to the visual arts since the beginning of civilisation. Art is created to understand or reflect upon the world, to communicate meaning and express how it feels to be human. The visual arts play a significant role in recording, shaping and reflecting the culture and context of society.

Study of the visual arts promotes innovation, creative and critical thinking skills, emotional resilience, empathy and self-efficacy, all of which are vital for a rapidly changing world. These transformative skills have been identified by the international Organisation for Economic Co-operation and Development (OECD) as helping students to thrive and shape a better future. Creating art can be a powerful motivator for personal and social change and research has shown overall better academic outcomes for arts learners. Tasmanians value and support our creative and cultural industries, which significantly contribute to the economy and our unique cultural identity. *Visual Art* Level 2 has been developed for learners seeking to engage with art practice in a particular studio area and may prepare learners for *Visual Art* Level 3. Methods and processes specific to the studio of choice are explored so that students develop visual literacy skills: the ability to interpret and make meaning from information presented in images; technical skills and aesthetic understanding in traditional, modern and contemporary art forms. Learners develop initial skills in the research, analysis and criticism of art forms from different social, historical and cultural contexts, and express and identify meaning in artworks.

The purpose of [Years 9 to 12 Education](#) is to enable all students to achieve their potential through Years 9 to 12 and beyond in further study, training or employment.

Years 9 to 12 Education enables: personal empowerment, cultural transmission, preparation for citizenship and preparation for work.

This course supports the principles of access, agency, excellence, balance, support and achievement as part of a range of programs that enables students to access a diverse and highly flexible range of learning opportunities suited to their level of readiness, interests and aspirations.

## Learning Outcomes

On successful completion of this course, learners will be able to:

1. identify and appropriately select and use elements and principles of design to solve problems

## Course Structure

This course consists of three 50-hour modules.

Module 1: Artwork and meaning

Module 2: Approaches to artmaking

Module 3: Concepts and consolidation

## Course Delivery

The three modules must be delivered in order 1, 2, 3.

The modules work in a sequential and progressive way and learners keep a visual diary throughout the three modules to document their ongoing development. Learners also maintain an ongoing collection of support material. As learners create two artworks in each module, they can choose to present these as part of the culminating work requirement of six artworks in Module 3.

## Course Requirements

### Access

Prior visual arts experience is recommended but not mandatory.

### Resource requirements

In certain studio areas such as printmaking, photography and ceramics, specific resources such as printing presses, photo editing software, potters' wheels and kilns may be required. Providers are advised to research the technical requirements for individual studios.

## **Course Content: Module 1**

### **Module 1 – Artwork and meaning**

Learners focus on artworks as objects and examine how art and design principles, materials, techniques, processes and approaches are employed to give and shape meaning. They are encouraged to undertake a range of experiences that offer different processes and techniques to make meaning through art practice.

### **Module 1 learning outcomes**

The following learning outcomes are a focus of this module:

1. identify and appropriately select and use elements and principles of design to solve problems
2. use appropriate technologies, techniques and conventions to express artistic intentions

Learners are introduced to artists and artworks that convey meaning in a variety of ways. They consider their roles as both art makers and viewers of art. Learners focus on how their own views and understandings shape meaning as a practitioner and viewer. Through research and experimentation, learners recognise that visual artworks are subject to different interpretations and learn to appreciate that when responding to artworks, they will need to consider a variety of contexts.

Learners explore a variety of ways of collecting, compiling and recording information. They use a variety of stimuli and source material to explore what 'meaning' is important to them; for example, ideas, issues or concepts. Learners document their reflections in a visual diary and journal.

### **Key knowledge**

- the principles of art and design
- factors that influence personal response to artworks
- qualities and characteristics of materials and art forms and how they may be used to present concepts and images
- methods for experimenting with and exploring materials
- presenting visual responses to personal interests and ideas.

### **Key skills**

- acquire and use appropriate terminology to discuss artwork
- formulate and substantiate opinion
- use a range of styles and symbols to produce responses that realise personal interest
- investigate the practices of artists and apply these.

### **Module 1 work requirements summary**

The work requirements for this module include:

- one extended response: support material
- one short response: selected artist response
- two artefacts: completed artwork
- one extended response: documentation evidence.

See Appendix 3 for the full specifications of the work requirements of this course.

### **Module 1 assessment**

This module has a focus on criteria 1, 2, 3, 4, 5 and 6.

## Course Content: Module 2

### Module 2 – Approaches to artmaking

Learners are exposed to artworks from a variety of historical and cultural contexts to inform and develop their understanding of artistic practice. The artists may be selected from a range of societies including artworks by Aboriginal and Torres Strait Islander artists and those from Asian cultures.

The learner is exposed to bodies of work from contemporary artists and demonstrates an understanding of intentional cohesion or discord in artwork.

Learners work towards completing a body of work in their selected studio that exhibits the characteristics introduced to them throughout the theoretical component of the course. They are guided to make specific choices to present and select works as a cohesive and finished display.

### Module 3 assessment

This module has a focus on criteria 1, 2, 3, 4, 5 and 8.

## Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate endpoint of study. Although assessment as part of the learning program is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating 'A', 'B', or 'C', according to the outcomes specified in the standards section of the course.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

**Quality Assurance Process**

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by individual learners
- community confidence in the integrity and meaning of the qualification.

**Process**

TASC will verify that the provider's course delivery and assessment meet the course requirements and community expectations for fairness, integrity and validity of qualifications TASC issues. This will involve checking:

- Provider standard 1: scope and sequence documentation:
  - course delivery plan
  - course assessment plan, assessment matrix
- Provider standard 2: student attendance records
- Provider standard 3: examples of assessments tools and instruments and associated rubrics and marking guides
- Provider standard 1 and 3: examples of student work including that related to any work requirements articulated in the course document
- Provider standard 4: class records of assessment.

This process will be scheduled by TASC using a risk-based approach.

**Criteria**

The assessment for *Visual Art* Level 2 will be based on the degree to which the learner can:

1. use the elements and principles of design to solve problems
2. select and use technologies, techniques and conventions in artmaking
3. communicate ideas, emotions and information through artworks
4. observe and respond to cultural influences and artworks
5. assess art ideas and information
6. apply time management, planning and negotiation skills to Visual Art activities
7. use reflective practice to inform artmaking
8. create a body of artwork.

## Appendix 4 – General capabilities and cross-curriculum priorities

### General capabilities and cross-curriculum priorities

Learning across the curriculum content, including the cross-curriculum priorities and general capabilities, assists students to achieve the broad learning outcomes defined in the *Alice Springs (Mparntwe) Education Declaration* (December 2019).

#### General capabilities:

The general capabilities play a significant role in the Australian Curriculum in equipping young Australians to live and work successfully in the twenty-first century.

In the Australian Curriculum, capability encompasses knowledge, skills, behaviours and dispositions. Students develop capability when they apply knowledge and skills confidently, effectively and appropriately in complex and changing circumstances, in their learning at school and in their lives outside school.

The general capabilities include:

- Critical and creative thinking
- Ethical understanding
- Information and communication technology capability
- Intercultural understanding
- Literacy
- Numeracy
- Personal and social capability

#### Cross-curriculum priorities:

Cross-curriculum priorities enable students to develop understanding about and address the contemporary issues they face, for their own benefit and for the benefit of Australia as a whole. The priorities provide national, regional and global dimensions which will enrich the curriculum through development of considered and focused content that fits naturally within learning areas. Incorporation of the priorities will encourage conversations between students, teachers and the wider community.

The cross-curriculum priorities include:

- Aboriginal and Torres Strait Islander histories and cultures
- Asia and Australia's engagement with Asia
- Sustainability

The new creative possibilities encouraged a great diversity of activity, and artists experimented with new visual formats and ideas.
