Visual Art Level 3 is a course for learners who would like to broaden and deepen their understanding and application of artistic practice, perception and visual literacy, the ability to interpret and make meaning from information presented in images

Visual Art Level 3 has been developed for learners seeking a pathway to tertiary studies or a career within the visual arts. Learners develop a resolved body of work in a single studio area which demonstrates their understanding of visual art as a form of communication, a way to make sense of the world and their own experience and a form of cultural transmission. The course encourages learners to apply problem-solving skills, think creatively and analytically and engage with traditional, modern and contemporary art forms. Learners apply and refine their skills in the research, analysis and criticism of art from a range of social, historical and cultural contexts, and express and identify meaning in artworks in increasingly sophisticated ways. Study of Visual Art Level 3 promotes skill refinement, confidence, self-direction and innovation, all of which help prepare learners for their future.

Focus Area

Discipline-based study

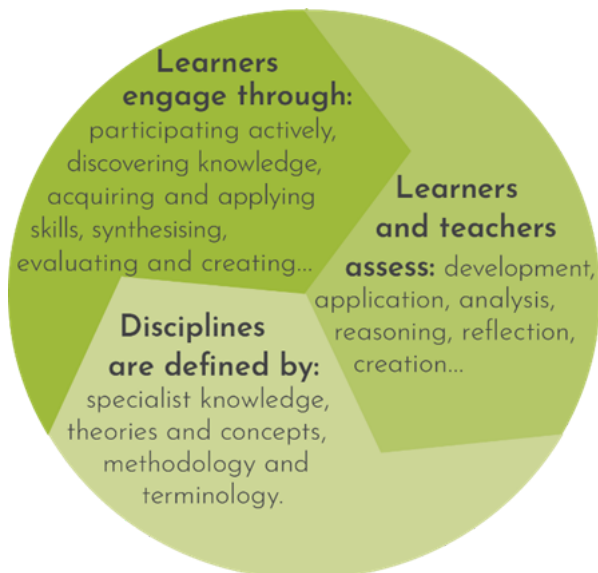

Courses aligned to the [Years 9 to 12 Curriculum Framework](#) belong to one of the five focus areas of Discipline-based study, Transdisciplinary projects, Professional studies, Work-based learning and Personal futures.

Visual Art Level 3 is a Discipline-based study course.

Discipline-based study includes content, core concepts and big ideas; this enables deep knowledge and understanding of the content and the application of what is learned. Learners consider accepted key disciplinary knowledge, apply distinctive ways of thinking and become increasingly independent learners. They use methodologies specific to the discipline to explore and strengthen their understanding of key concepts and develop deep knowledge, skills and understanding.

Discipline-based study courses have three key features that guide teaching and learning:

- specialist knowledge
- theories and concepts and
- methodology and terminology.

In this course learners will do this by:

- deepening and broadening their skills, techniques and problem-solving skills in a specialist studio area
- applying the concepts and theories that underpin their chosen studio area and the arts more generally, including the concept that artistic conventions can be adhered to or subverted
- using and applying the appropriate methodologies and terminology in their artmaking and art analysis including visual literacy methodologies and language.

Rationale

Art is an intrinsic human activity and people have made and responded to the visual arts since the beginning of civilisation. Art is created to understand or reflect upon the world, to communicate meaning and express how it feels to be human. The visual arts play a significant role in recording, shaping and reflecting the culture and context of society.

Study of the visual arts promotes innovation, creative and critical thinking skills, emotional resilience, empathy and self-efficacy, all of which are vital for a rapidly changing world. These transformative skills have been identified by the global Organisation for Economic Co-operation and Development (OECD) as helping students to thrive and shape a better future. Creating art involves the cognitive, aesthetic and practical domains. Research has shown overall better academic outcomes for arts learners.

Tasmanians value and support creative and cultural industries, which significantly contribute to the economy and Tasmanian cultural identity. *Visual Art* Level 3 has been developed for learners seeking a pathway to tertiary studies or a visual arts career. *Visual Art* Level 3 builds on the skills gained in *Visual Art* Level 2 and provides an opportunity for learners to further their artistic skills, techniques and artistic vision in the artistic studio of their choice. It allows learners to broaden and deepen their understandings and application of artistic practice, perception, and visual literacy, the ability to interpret and make meaning from information presented in images. The course encourages learners to apply problem-solving skills, think creatively and analytically, engage with traditional, modern and contemporary art forms, and display their artworks to an audience. Learners apply and refine their skills in the research, analysis and criticism of art from a range of social, historical and cultural contexts, and express and identify meaning in artworks in increasingly sophisticated ways. Study of *Visual Art* Level 3 gives learners the confidence to think of themselves as creative practitioners able to take on challenges, overcome problems and produce tangible outcomes.

The purpose of [Years 9 to 12 Education](#) is to enable all students to achieve their potential through Years 9 to 12 and beyond in further study, training or employment.

Years 9 to 12 Education enables: personal empowerment, cultural transmission, preparation for citizenship and preparation for work.

This course supports the principles of access, agency, excellence, balance, support and achievement as part of a range of programs that enables students to access a diverse and highly flexible range of learning opportunities suited to their level of readiness, interests and aspirations.

Learning Outcomes

On successful completion of this course, learners will be able to:

Pathways

Pathways into the *Visual Art* Level 3 course enable learning continuity from *Visual Art* Level 2, for students who may have completed the Years 9-10 band of the Australian Curriculum: The Arts or for students who have prior arts experience.

Pathways out of *Visual Art* Level 3 include opportunities for learners to undertake the *Art Studio Practice* Level 3 course and courses in visual arts at a tertiary level. For a full description of courses at a complexity level of 3, please refer to the [Levels of Complexity - Tasmanian Senior Secondary Education](#) document.

This course has a size value of 15. Upon successful completion of this course (i.e., a Preliminary Achievement (PA) award or higher), a learner will gain 15 credit points at Level 3 towards the Participation Standard of the Tasmanian Certificate of Education (TCE).

Course Structure

This course consists of three 50-hour modules.

Module 1: Visual thinking – interpreting art

Module 2: Investigation and exploration

Module 3: Context and resolution

Course Delivery

The three modules must be delivered in order 1, 2, 3. Work must be produced over one academic year, 150 hours, and not be assessed as part of any other course.

The modules work in a progressive and sequential way and learners keep a visual diary throughout the three modules to document their artist research, idea generation and ongoing development. Learners also maintain evidence of their exploration, experimentation and other work as support material. As learners create two artworks in each module, they can choose to present these as part of the culminating work requirement of a minimum of six artworks equivalent to 150 hours' arts practice in module 3.

Course Requirements

Access

Learners who have completed *Visual Art* Level 2 will have been introduced to key knowledge, skills and understandings to support their study in this course. However, *Visual Art* Level 2 is not a mandatory entry requirement for this course.

Resource requirements

In certain studios such as printmaking, photography and ceramics, specific resources such as printing presses, photo editing software, potters' wheels and kilns may be required. Providers are advised to research the technical requirements for individual studios.

Course Content: Module 1

Module 1 – Visual thinking – interpreting art

Learners understand and apply visual thinking skills. Visual thinking skills include the ability to:

- understanding the visual codes and conventions, principles and elements of design, to describe, explain, analyse, interpret and, ultimately, to develop a personal visual aesthetic.

visually record

- inspirations, influences, ideas, thoughts, messages, media, analysis of works of art or design — using technology, developing, and refining ideas and skills, and working towards resolution of works of art or design.

Learners develop visual thinking skills to analyse and interpret the artwork of others and refine their own artmaking process.

Module 1 learning outcomes

The following learning outcomes are a focus of this module:

1. select and apply elements and principles of design to solve complex problems
2. use appropriate and effective technologies, techniques and conventions to effectively express artistic intentions

- the meaning or intention behind an artwork and the understanding that meaning is subjective and influenced by social, historical and cultural context
- how artists use artmaking as a voice to communicate ideas and concepts as well as manipulate the response of an intended audience.

Learners use the knowledge gained above to experiment with their own artmaking in response to teacher-directed tasks, recording their exploration in visual diaries or journals for future development and refinement.

Key knowledge:

- the principles and elements of design
- the use of materials, techniques and processes specific to studio areas
- ways in which an artist's work is influenced by socio-historical and cultural context
- how meaning is made and communicated in artwork.

Key skills:

- using vocabulary to describe and analyse own work and the work of others
- applying techniques, processes and technologies to own artmaking
- employing the principles and elements of design to communicate artistic intent.

Module 1 work requirements summary

The work requirements for this module include:

- One support material: use of a visual diary or journal commences in module 1 and is used throughout the course as a part of the support material collection.
- Two short written responses: interpretation and analysis, and inspiration and influences.
- Two artefacts: completed artworks, which may be used in the culminating body of artworks in module 3.
- One short response: documentation evidence, which may be used as supporting evidence in module 3.

2. use appropriate and effective technologies, techniques and conventions to effectively express artistic intentions
3. communicate ideas, emotion and information to affect and move an audience when creating personal and unique artworks
4. critically analyse and creatively respond to a range of cultural influences and artworks
5. critically analyse and evaluate art ideas and information and make informed aesthetic judgements
7. apply effective reflective strategies to inform their artmaking and work as self-directed practitioners.

Learners begin to apply processes to develop their personal artmaking practice:

experimentation

- exploring related techniques and processes to further develop their practical work
- manipulating their medium to develop new skills and enhance their artistic practice.

refinement

- employing refinement process: explore, experiment, reflect, analyse, evaluate and apply
- justifying choices and processes: verbally and through annotation.

Learners apply reflective processes to document the progress of their work. They are encouraged and supported to link theoretical understanding with practical application.

- primary and secondary visual influences
- broad exposure to art making and makers.

Key skills:

- processes for developing and refining artwork
- applying techniques and approaches demonstrating expressive and technical competence
- selecting, manipulating and refining media to create and communicate artistic intent.

Module 2 work requirements summary

The work requirements of a course are processes, products or performances that provide a significant demonstration of achievement that is measurable against the course's standards. Work requirements need not be the sole form of assessment for a module.

The work requirements for this module include:

- One extended response: support material. Continued use of visual diary or journal commenced in module 1.
- Two short responses: viewpoint and commentary and a response to an issue or context.

Module 2 assessment

This module has a focus on criteria 1, 2, 3, 4, 5 and 7.

Course Content: Module 3

Module 3 – Context and resolution

Learners will consider context, viewpoints and commentaries in relation to artworks.

They explore the roles of:

- the artist
- the audience
- the context in which an artwork is created
- the context in which an artwork is subsequently viewed.

Information from visiting artists, galleries, lectures, online programs, journals, podcasts, catalogues and newspapers, as well as texts from critics, historians and curators, may be used to support the learners' understanding of the way in which art can affect the way people think.

Diverse approaches to both the creation of artwork and the ideas and approaches behind works of art are explored in relation to societal changes including post-modernism, post-colonialism, globalisation and environmental issues.

Learners will use the art process to continue to develop a cohesive body of work inspired by ideas, concepts and observations. They engage in ongoing development and refinement. They document and analyse their thinking and working practices through appropriate visual language and art-specific terminology in visual diaries and reflective critiques.

Module 3 learning outcomes

The following learning outcomes are a focus of this module:

1. select and apply elements and principles of design to solve complex problems

Module 3 work requirements summary

The work requirements of a course are processes, products or performances that provide a significant demonstration of achievement that is measurable against the course's standards. Work requirements need not be the sole form of assessment for a module.

The work requirements for this module include:

- One extended response: support material. Continued use of visual diary or journal as commenced in module 1 and developed further in module 2.
- One completed body of work comprising a minimum of six artworks. Learners may choose to include any of the four artworks completed in module 1 and module 2.
- One project: research assignment.

See Appendix 3 for the full specifications of the work requirements of this course.

Module 3 assessment

This module has a focus on criteria 1, 2, 3, 4, 5 and 8.

Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate endpoint of study. Although assessment as part of the learning program is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating 'A', 'B', or 'C', according to the outcomes specified in the standards section of the course.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

TASC will supervise the external assessment of designated criteria which will be indicated by an asterisk (*). The ratings obtained from the external assessments will be used in addition to internal ratings from the provider to determine the final award.

Quality Assurance Process

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

Process

TASC gives course providers feedback about any systematic differences in the relationship of their internal and external assessments and, where appropriate, seeks further evidence through audit and requires corrective action in the future.

This process will be scheduled by TASC using a risk-based approach.

To ensure academic integrity, schools must demonstrate that consideration has been given to the contribution of others to an individual's work. This includes referencing the work of others and identifying members of peer teams.

External Assessment Requirements

The external assessment for this course will comprise:

- one exhibition assessing criteria 1, 2, 3, 4 and 8.

For further information, see the current external assessment specifications and guidelines for this course available in the Supporting documents below.

Appendix 4 – General capabilities and cross-curriculum priorities

General capabilities and cross-curriculum priorities

Learning across the curriculum content, including the cross-curriculum priorities and general capabilities, assists students to achieve the broad learning outcomes defined in the *Alice Springs (Mparntwe) Education Declaration* (December 2019).

General capabilities:

The general capabilities play a significant role in the Australian Curriculum in equipping young Australians to live and work successfully in the twenty-first century.

In the Australian Curriculum, capability encompasses knowledge, skills, behaviours and dispositions. Students develop capability when they apply knowledge and skills confidently, effectively and appropriately in complex and changing circumstances, in their learning at school and in their lives outside school.

The general capabilities include:

- Critical and creative thinking
- Ethical understanding
- Information and communication technology capability
- Intercultural understanding
- Literacy
- Numeracy
- Personal and social capability

Cross-curriculum priorities:

Cross-curriculum priorities enable students to develop understanding about and address the contemporary issues they face, for their own benefit and for the benefit of Australia as a whole. The priorities provide national, regional and global dimensions which will enrich the curriculum through development of considered and focused content that fits naturally within learning areas. Incorporation of the priorities will encourage conversations between students, teachers and the wider community.

The cross-curriculum priorities include:

- Aboriginal and Torres Strait Islander histories and cultures
- Asia and Australia's engagement with Asia
- Sustainability
