Dance Choreography and Performance is a Level 3 course in which students learn the principles of composition and use these to choreograph a group and solo piece for external assessment

Critical analysis of the works of others and reflection on the learners own work form the basis for the theory component and for external assessment. Dance Choreography and Performance may lead on to further tertiary studies in Dance.

Course Description

Dance Choreography and Performance provides opportunities for learners to develop and refine their skills in the practical presentation and performance of contemporary dance work to audiences.

Learners will engage in theoretical and practical activities leading to the creation of original choreography for solo and group work.

Learners develop as performers and choreographers, through learning about and experiencing works of dance professionals and companies, including some Australian examples.

Fundamental to all aspects of the course is learners' awareness and application of safety, for self, around others, and in the space.

Rationale

Dance is recognised as a significant component of Australian performing arts. Dance is the universal language of movement that conveys meaning and evokes emotions in audiences from all social and cultural communities. Dance is an embodied mode of communication that can express life experiences, observations and reflections.

Dance Choreography and Performance is a theoretical and practical course that engages the intellect, body and emotions. Through the study and practice of dance, this course prepares learners to be; discerning, reflective and critical viewers of dance, and creative, innovative and productive contributors to society as performers and makers of new dance works. *Dance Choreography and Performance* provides pathways to training and tertiary study in dance performance and associated careers within the dance industry.

Aims

Dance Choreography and Performance aims to extend learners' previous knowledge, skills and appreciation acquired as a result of completion of other TASC accredited courses, and/or other dance experiences.

The course aims to develop the learners' potential as a performer and/or choreographer.

Learners will have opportunities to further their knowledge and appreciation of professional dance artists and dance companies, including notable Australian examples. Learners will also have the opportunity to extend their knowledge of, and appreciation of, local dance events and activities.

Learning Outcomes

On successful completion of this course, learners will be able to:

1. create original dance work
2. communicate ideas and intentions using elements of dance
3. present polished dance works using technical skills and artistic expression
4. reflect on - and evaluate - own dance practices
5. document and evaluate dance-making processes
6. evaluate the use of genres, styles historical and cultural contexts and elements of movement in dance works
7. use relevant terminology relevant to dance performance and choreography
8. identify and appropriately react to potential hazards in a dance environment, and appropriately apply safe dance principles and practices
9. critically analyse and apply the structure of dance works
10. work as a soloist and/or member of an ensemble to achieve rehearsal and performance outcomes.

Access

There are no access restrictions or prerequisite requirements for entry to this course.

Some learners with physical disabilities will be able access this course and receive an award commensurate with their ability to successfully meet the assessment standards. For some learners, this may be a preliminary Achievement (PA) or a Satisfactory Achievement (SA).

This course requires learners to work in groups.

Pathways

Dance Level 2 is a pathway course leading to study of *Dance Choreography and Performance* Level 3.

The study of *Dance Choreography and Performance* is relevant to learners who wish to pursue further study at tertiary level, in vocational education training settings or to pursue industry or community related pathways.

This course is also suitable for learners with career pathways that include: Musical Theatre; Performing Arts; Human Movement; Dance Therapy; Dance Education.

Resource Requirements

This course requires access to a suitable and safe space for movement activities and dance work, free from potentially hazardous obstacles. The space will be adequate in size and ventilation to cater for the movement activities of individuals and small groups, and whole class work as required.

Access to audio equipment will be required.

Access to technology equipment for the viewing of recorded dance works will be required (e.g. YouTube).

Some learners may choose to use personal sound/music devices in practical activities (e.g. MP3 players, phones).

Course Size And Complexity

This course has a complexity level of 3.

At Level 3, the learner is expected to acquire a combination of theoretical and/or technical and factual knowledge and skills and use judgement when varying procedures to deal with unusual or unexpected aspects that may arise. Some skills in organising self and others are expected. Level 3 is a standard suitable to prepare learners for further study at tertiary level. VET competencies at this level are often those characteristic of an AQF Certificate III.

This course has a size value of 15.

- a group dance work (4-6 minutes duration)

The works will exhibit a diverse range of movement vocabulary.

Unit 3 Preparation and Performance

Learners are required to perform in:

1. solo choreographed by self, **and**
2. a group dance work choreographed by self or another learner

Unit 4 Analysis and Reflection

In written work, learners will use appropriate written conventions such as correct spelling, grammar, punctuation, essay structure, referencing.

For further information see the current external assessment specifications and guidelines for this course available in the Supporting Documents below.

GENERAL WORK EXPECTATIONS

This course requires a class of learners to undertake and fulfill the role of a performer working as a member of a group, and individually. Individual learners must be aware that such roles involve expectations that they will:

- complete necessary tasks in preparation for rehearsals and performances (e.g. memorising choreography)
- take responsibility for ensuring that they know and understand rehearsal rosters and performance calls
- be punctual to all rehearsals and performances
- notify in advance of inability to attend.

USE OF A DANCE WORKBOOK

Learners will maintain a Dance Workbook.

The use of a Dance Workbook provides a framework through which learners can reflect and comment on personal dance experience, including peer evaluation of own work.

Learners will record personal planning, stimulus material and details of research for development of intent in composition.

They will record problem-solving strategies and development of skills in observing, recalling and articulating information about dance.

The Dance Workbook will be a useful resource when learners write their personal reflection folio.

Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating 'A', 'B', or 'C', according to the outcomes specified in the standards section of the course.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in quality assurance processes specified by TASC to ensure provider validity and comparability of standards across all awards. To learn more, see TASC's quality assurance processes and assessment information.

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

TASC will supervise the external assessment of designated criteria which will be indicated by an asterisk (*). The ratings obtained from the external assessments will be used in addition to internal ratings from the provider to determine the final award.

Quality Assurance Process

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

Process – TASC gives course providers feedback about any systematic differences in the relationship of their internal and external assessments and, where appropriate, seeks further evidence through audit and requires corrective action in the future.

External Assessment Requirements

The external assessment for this course will comprise:

- a practical assessment of criteria: 6, 7 and 8
- written work used to assess criteria: 1 and 2.

For further information see the current external assessment specifications and guidelines for this course available in the Supporting Documents below.
