## MESSAGE FROM THE MINISTER FOR EDUCATION AND TRAINING

### Congratulations on completing your 2018 studies.

Whether you are receiving your Year 11 or your Year 12 results, it's a wonderful achievement to have reached this important milestone in your education.

The Tasmanian Certificate of Education (TCE) and other Office of Tasmanian Assessment, Standards and Certification (TASC) issued qualifications such as the Tasmanian Certificate of Educational Achievement and the Qualifications Certificate are highly valued qualifications recognised across Australia.

For Year 11 students, you can be assured that you are building

a strong foundation for your final year of school. If you have completed Year 12 or its equivalent in vocational education and training (VET) you can be confident the qualification you've achieved will set you up for future success whatever your pathway – the world of work, further VET study, an apprenticeship or university.

Congratulations again on your learning journey. I wish you all the best in your future work, study and life endeavours.

## VOCATIONAL EDUCATION AND TRAINING CAN TAKE YOU ANYWHERE!

College is now over and you're looking to the future.  
But what does that mean for you...?

Maybe you're interested in undertaking further study, getting a job, travelling the world or starting your own business? Whatever your goals, Vocational Education and Training (VET) can help you get there.

One of the best things about vocational skills is that they are transferrable – with the right vocational training behind you, you can go anywhere in the world.

At TasTAFE we focus on real life learning. You won't just be sitting in a classroom - you'll learn by doing! You'll have the chance to immerse yourself in your area of interest by undertaking practical work experience or work placements. This means that when it comes to talking to potential employers, you'll already be ahead of the pack. Our teachers are true industry professionals who love to share their passion and experience – it's an inspiring and rewarding way to learn.

You'll probably be interested to know that a recent report by the Skilling Australia Foundation showed VET graduates earn wages comparable to, if not exceeding, university graduates.

If an apprenticeship is your thing, you can get paid while you study, learn on the job and practice your skills in our workshops. It could be the first step to starting your own business! But if university is your ultimate goal we can help you get there too as many of our courses provide credit towards a uni degree.
