Course Content	<p><b>Scenario A - Medium term</b> Return to <i>school environment</i> mid/end of July</p> <p><i>Alternative approaches to teaching and learning are required to deliver course requirements. No specific 2020 considerations have been applied to this course, however, the requirement for any potential modifications to the external assessment specifications for Level 3 and Level 4 courses is still being considered.</i></p> <p><b>TASC notation</b> It is noted that that the course document does not specify the minimum number of responses to constitute a suitable sample size for surveys. The scope and method of conducting empirical research for the Investigation Project (IP) should appropriately consider any constraints experienced by students. Where an appropriate sample size cannot be achieved, students may consider alternative research and analysis mechanisms such as a case study.</p>
