Course Content	<p>Scenario A - Medium term Return to school environment mid/end of July</p> <p><i>Alternative approaches to teaching and learning are required to deliver course requirements. No specific 2020 considerations have been applied to this course, however, the requirement for any potential modifications to the external assessment specifications for Level 3 and Level 4 courses is still being considered.</i></p> <p>Course Content Module 2</p> <p><i>At the discretion of course providers, TWO of the four compulsory Parts in Module 2 may be undertaken in an abridged manner.</i></p> <p>TASC notation It is noted that that the course document does not specify the minimum number of responses to constitute a suitable sample size for surveys. The scope and method of conducting empirical research for the Investigative Project should appropriately consider any constraints experienced by students. Where an appropriate sample size cannot be achieved, students may consider alternative research and analysis mechanisms such as a case study.</p>
