

TASC advice *Health and Physical Education* [as of 11 May 2020]

Personal Care Level I (PER110118)

TASC, with a focus on honouring the nature and intention of **Health and Physical Education**, also recognises the extraordinary circumstances facing learners and teachers in 2020.

TASC recognises that the application of practical experiences is typically integrated in approaches to teaching and learning during Health and Physical Education courses. An additional focus within the Health group of courses is building awareness and connections to community services and support networks. Teachers need to be mindful of this when designing learning experiences to retain the intent and integrity of these courses when learning from home. In addition, location, space, equipment, safety requirements, and consideration of each learner's situation must be considered for those units involving engagement in the physical activity, and access to the community learning experiences that support progress to life-long engagement with physical activities.

After consultation with the community of teachers of Health and Physical Education – *Personal Care Level I (PER110118)* TASC issues the following advice:

<i>Personal Care Level I (PER110118)</i>	
Course content: Units 1-5	<p>Scenario A - Medium term Return to <i>school environment</i> mid/end of July</p> <p><i>Alternative approaches to teaching and learning are required to deliver course requirements. No specific 2020 considerations have been applied to this course.</i></p> <p>Course content Units 1 - 5</p> <ul style="list-style-type: none">Providers may need to focus on the theoretical components from Unit 1, 2, 3, 4. Practical aspects of Unit 5 might be undertaken within the context of a learning from home environment.
