Italian, 150 hours - Level 2

Focus area – Discipline-based study

Courses aligned to the [Years 9 to 12 Curriculum Framework](#) belong to one of the five focus areas of Discipline-based study, Transdisciplinary projects, Professional studies, Work-based learning and Personal futures.

Italian Level 2 is a Discipline-based study course.

Discipline-based study includes content, core concepts and big ideas; enabling deep knowledge and understanding of the content and the application of what is learned. Learners consider accepted key disciplinary knowledge, apply distinctive ways of thinking and become increasingly independent learners. They use methodologies specific to the discipline to explore and strengthen their understanding of key concepts and develop deep knowledge, skills and understanding.

Discipline-based study courses have three key features that guide teaching and learning:

- specialist knowledge
- theories and concepts and
- methodology and terminology.

In this course learners will do this by:

- using the three module concepts of identity, responsibility and legacy¹ to learn vocabulary and structures for reading, writing, speaking, viewing and listening to Italian language: specialist knowledge
- applying grammar structures to convey meaning in spoken and written language: theories
- exploring aspects of culture through the concepts for each module and reflecting on similarities and differences between their own cultures and that of Italian-speaking countries and regions: concepts
- building strategies for learning a language so that they become independent learners: methodology
- using appropriate terms to discuss their own language and the Italian language: terminology.

Rationale

Italian Level 2 enables personal empowerment and intercultural understanding. It allows learners to develop the ability to communicate in an additional language and provides them with opportunities to reflect on their own first language, culture and heritage. Learning Italian extends Tasmanian learners' intercultural competence and to develop knowledge, skills and understandings that will allow them to function successfully in the ever-changing world of the 21st century. The study of Italian promotes and contributes to a socially cohesive society that values, respects and appreciates different points of view. It encourages a better understanding and acceptance of cultural, social, linguistic and religious diversity in Tasmania, in the wider Australian community and globally.

The course provides access to *Italian* Level 3 and also gives learners the opportunity to develop metacognitive and metalinguistic skills. The significant shared origins of Italian and English can help Tasmanian learners improve their literacy skills. The skills learned in Italian can also be transferred to all other languages offered as part of Years 9 to 12 Education.

Learners who are able to communicate in Italian and engage with Italian culture will be able to contribute to Tasmanian society and the economy through such areas as business, foreign affairs and sector-specific European Union trade. Italian language and culture will be a significant benefit for Tasmanian learners of the arts, industrial design, textiles and fashion design in coming decades. These skills will provide learners with a range of opportunities for personal, vocational and professional growth².

The purpose of Years 9 to 12 Education is to enable all learners to achieve their potential through Years 9 to 12 and beyond in further study, training or employment.

Years 9 to 12 Education enables personal empowerment, cultural transmission, preparation for citizenship and preparation for work.

This course is built on the principles of access, agency, excellence, balance, support and achievement as part of a range of programs that enables learners to access a diverse and flexible range of learning opportunities suited to their level of readiness, interests and aspirations.

Learning outcomes

On successful completion of this course learners will be able to:

1. analyse and respond to spoken texts presented in basic Italian
2. communicate in basic spoken Italian to exchange information, opinions, ideas and experiences
3. analyse and respond to written texts presented in basic Italian

Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate endpoint of study. Although assessment as part of the learning program is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect endpoint achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating 'A', 'B', or 'C', according to the outcomes specified in the standards section of the course.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

Criteria

	Module 1	Module 2	Module 3
Criteria focus	1, 2, 3, 4, 5, 6	1, 2, 3, 4, 5, 7	1, 2, 3, 4, 5, 8

Quality assurance

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by individual learners
- community confidence in the integrity and meaning of the qualification.

Process

TASC will verify that the provider's course delivery and assessment meet the course requirements and community expectations for fairness, integrity and validity of qualifications TASC issues. This will involve checking:

- Provider standard 1: scope and sequence documentation:

- course delivery plan
- course assessment plan; assessment matrix
- Provider standard 2: student attendance records
- Provider standard 3: examples of assessments tools and instruments and associated rubrics and marking guides
- Provider standard 1 and 3: examples of student work including that related to any work requirements articulated in the course document
- Provider standard 4: class records of assessment

This process will be scheduled by TASC using a risk-based approach.

Qualifications and award requirements

Appendix 2 - Alignment to curriculum frameworks

Italian Level 2 draws on the following aspects of the Combined Curriculum and Assessment Framework for Languages (CCAFL) 2021:

- Concepts: identity, responsibility, legacy (topics developed from these concepts to meet the needs of the Tasmanian beginning language student)
- Perspectives: personal, community, global
- Course objectives: interact in [Language][†], analyse [Language], create meaning in [Language]
- Knowledge and skills to be assessed: reading, writing, speaking, viewing and listening to [Language]
- Content: learning [Language], using [Language] and mediating between [Language]-speaking communities and Australian cultural contexts
- The interrelationship between language and culture and the importance of the link between culture and effective communication
- The development of the capacity for ongoing reflection about languages and cultures, including the learner's own and those of others
- The development of an understanding of language as a system and reflection on how language is used in different contexts and may vary between different individuals and groups.

[†] The use of [Language] is taken directly from the CCAFL. It is a national framework which does not refer to individual languages. Where these aspects of the alignment appear elsewhere in the body of this course document, they have been identified in relation to the relevant language: Italian.

Appendix 3 - Work requirements

Module 1 work requirements specifications

Work requirement 1 of 2

Title of work requirement: Identity – personal, community and global perspectives of the individual

Mode or format: short responses

Description: The teacher leads a conversation in Italian with the learner about themselves, their family and friends. The conversation is intended as a natural interaction. Images may be used to prompt responses. The teacher varies questions as appropriate for individual learners and reacts to the learner's responses.

Size: ten short responses

Timing: any appropriate time during the module.

External agencies: NA

Relevant criteria:

- Criterion 2: all elements

Work requirement 2 of 2

Title of work requirement: Identity – self, family and friends

Mode or format: extended response

Description: The teacher identifies one of the Module 1 topics as the focus for this work requirement. Using this topic, the learner chooses authentic materials as appropriate, to research and prepare a multimodal response in Italian and English to compare and contrast their own situation with that of their peers in Italian-speaking communities and countries. The teacher provides questions in written or oral form, in Italian and or English as appropriate, to inspire the learner's findings and reflections.

Size: extended response – 2-3-minutes multimodal presentation plus 2-3 minutes for follow-up questions and maximum 300 words in English with examples in Italian.

Timing: any appropriate time during the module.

External agencies: NA

Relevant criteria:

- Criterion 5: all elements
- Criterion 6: all elements

Module 2 work requirements specifications

The teacher and learners may negotiate which topic to use for each of the following three work requirements, ensuring there is a different topic for each.

Work requirement 1 of 3

Title of work requirement: Responsibility – daily life, community, education or part-time employment

Mode or format: short responses: for example, short question, table filling, true, false and justification, gap filling, information matching

Description: The teacher provides a set of at least two sources of information in Italian, authentic as appropriate. At least two sources must each be a different mode. Modes are visual, spoken, written and multimodal. The sources of information all address one topic from the concept of responsibility with a set of short response tasks in English to assess learners' understanding of language and culture.

Size: approximately 10 short responses.

Timing: any appropriate time during the module.

External agencies: NA

Relevant criteria:

- Criterion 3: all elements

Work requirement 2 of 3

Title of work requirement: Responsibility – daily life, community, education or part-time employment

Mode or format: extended response

Description: The teacher provides a stimulus or stimuli, authentic as appropriate, consisting of written, spoken and visual modes in Italian and English, to highlight or contrast one of the topics from the concept of responsibility from either personal, community or global perspectives, or a combination of perspectives. Learners analyse and respond to the prepared scenario requiring extraction of fact, interpretation of cultural elements and reflection on the learner's language and Italian. The task will include at least two modes or could be all three, but they must have a shared focus. Texts will provide opportunities for learners to explore cultural aspects of the material they are analysing.

Stimuli maximum sizes: total of 300 words, 1 minute 30 seconds spoken text and, or 3 minutes multimodal sources.

Size: learner response:

- approximately 100 words total in Italian
- approximately 250 words in English with examples in Italian
- visual text, illustrations and diagrams, as appropriate.

Timing: any appropriate time during the module.

[Work requirement 3 of 3](#)

Title of work requirement: Responsibility – daily life, community, education or part-time employment

Mode or format: extended response

Description: The teacher provides a choice of two stimuli outlining a task that requires the learner to create written Italian addressing the negotiated topic allocated to this work requirement. The stimulus will be a written question or statement in Italian and may include visual elements to support understanding and generation of ideas. The learner chooses which of the stimuli they will use to create a response in Italian.

Stimulus approximately 30 words.

Size: response approximately 100 words.

Timing: any appropriate time during the module.

External agencies: NA

Relevant criterion: 4

[Module 3 work requirements specifications](#)

[Work requirement 1 of 1](#)

Title of work requirement: Legacy – personal, community and global perspectives

Mode or format: folio containing 3 components

Description:

- I. Extended response: integrated task
 - a prepared, extended response in multimodal format and including the use of Italian language either written or spoken
 - a comparison of at least two items, events or occurrences from the world of the arts, entertainment, media or sport for the target language and cultures. Stimuli may be drawn from the same or different topics, provided they offer sufficient opportunity for comparison and reflection
 - a concluding conversation with the teacher in which the learner reflects on their research. The majority of the conversation can be conducted in English, but discussion must include

consideration of the Italian language that the learner has engaged with during the research process. A presentation to a group is not a requirement of this task.

2. A set of short responses to an audio stimulus in Italian to be completed under test conditions. Teacher and learners may negotiate at the beginning of the module which remaining topic will be used for each of components 2 and 3: Leisure time and Travel.
3. An extended response demonstrating the learner's capacity to create meaning in written Italian to convey information, ideas and opinions about events in the past, as well as a reflection in English. Teacher and learners may negotiate at the beginning of the module which remaining topic will be used for each of elements 2 and 3: Leisure time and Travel.

Size:

- extended response: integrated task in multimodal format including reflections: Maximum 5 minutes
- short responses: maximum 10 responses, approximately 150 words in English
- extended response in written Italian: maximum 150 words plus a reflection of maximum 300 words in English with examples in Italian.

Timing: any appropriate times during the module. As this is a folio, individual components can be done at different times.

Appendix 4 – General capabilities and cross-curriculum priorities

Learning across the curriculum content, including the cross-curriculum priorities and general capabilities, assists students to achieve the broad learning outcomes defined in the *Alice Springs (Mparntwe) Education Declaration* (December 2019).

General capabilities:

The general capabilities play a significant role in the Australian Curriculum in equipping young Australians to live and work successfully in the twenty-first century.

In the Australian Curriculum, capability encompasses knowledge, skills, behaviours and dispositions. Students develop capability when they apply knowledge and skills confidently, effectively and appropriately in complex and changing circumstances, in their learning at school and in their lives outside school.

The general capabilities include:

- Critical and creative thinking 
- Ethical understanding 
- Information and communication technology capability 
- Intercultural understanding 
- Literacy 
- Numeracy 

- Personal and social capability 🦿

Cross-curriculum priorities:

Cross-curriculum priorities enable students to develop understanding about and address the contemporary issues they face, for their own benefit and for the benefit of Australia as a whole. The priorities provide national, regional and global dimensions which will enrich the curriculum through development of considered and focused content that fits naturally within learning areas. Incorporation of the priorities will encourage conversations between students, teachers and the wider community.

The cross-curriculum priorities include:

- Aboriginal and Torres Strait Islander histories and cultures 🖐
- Asia and Australia's engagement with Asia 🏔
- Sustainability 🌱

Appendix 7 – Further guidance: text types, styles of writing and dictionary use

Text types

The following text types apply to all modules of *Italian* Level 2. Teachers will select text types for each module based on the knowledge, skills, experience and interests of learners. Learners will be expected to be able to use the text types listed below in assessment tasks.

- Blog post
- Email
- Invitation
- Journal diary entry
- Message/note
- Brochure
- Script of a speech
- Transcript of an interview
- Informal letter

Styles of writing

Teacher-developed tasks for Criterion 4 and Criterion 5:

- will include purpose, context, process, product and audience
- may be personal, informative, descriptive, either individually or in combination.

Dictionaries

Learners are encouraged to use monolingual and/or bilingual dictionaries. Use of dictionaries is part of a range of strategies that learners can apply in order to:

- learn to mediate between languages
- reflect on language use
- understand the context for language use
- understand language as a system
- understand the limitations of resources and technologies.

Successful use of dictionaries and translation technologies requires students to understand the characteristics of vocabulary in [Language][†] and how [Language] is presented in reference texts. Effective dictionary use is a skill that assists students to develop critical thinking skills, strategies for accurately confirming meaning and creating interest to engage an audience. It is expected that teachers will help students to develop the necessary skills and confidence to use dictionaries effectively. (CCAFL 2021).

[†] The use of [Language] is taken directly from the CCAFL. It is a national framework which does not refer to individual languages. Where these aspects of the alignment appear elsewhere in the body of this course document, they have been identified in relation to the relevant language: Italian.
