## Business Studies - Foundation Level 2 enables learners to gain an understanding of small business and enterprise

The course develops the knowledge, understanding and skills that will inform learners about the small business environment in Australia and encourages them to participate in, and contribute to it. Learners are exposed to and encouraged to demonstrate enterprising behaviours and capabilities such as embracing change, seeking innovation and showing initiative. They will develop skills that enable them to identify contemporary small business opportunities, investigate these by collecting and interpreting relevant information and data, apply business reasoning and concepts to make informed decisions and reflect on, evaluate and communicate their conclusions. Business Studies - Foundation fosters business literacy that will ensure learners are better placed now and in the future to actively participate in small business. This will enable them to contribute to the development of a prosperous and sustainable economy and to secure their own financial wellbeing.

### Course Description

Business Studies – Foundation Level 2 is an introduction to establishing and operating a small business in the Australian economy. It examines the ways people within business manage resources to achieve the objectives of the organisation, particularly marketing and accounting and finance. Learners are provided with a practical opportunity to combine their knowledge and skills to develop a business plan for an enterprising idea of interest. Applied learning underpins this course. This involves the acquisition and application of knowledge, understanding and skills through the use of authentic, real-world or lifelike contexts, such as using current and contemporary examples and case studies concerning business and entrepreneurship and managing or operating a school or community based enterprise or event.

### Rationale

Business Studies – Foundation Level 2 enables learners to gain an understanding of small business and enterprise. The course develops the knowledge, understanding and skills that will inform learners about the small business environment in Australia and encourages them to participate in, and contribute to it.

Learners are exposed to and encouraged to demonstrate enterprising behaviours and capabilities such as embracing change, seeking innovation and showing initiative. They will develop skills that enable them to identify contemporary small business opportunities, investigate these by collecting and interpreting relevant information and data, apply business reasoning and concepts to make informed decisions and reflect on, evaluate and communicate their conclusions.

Business Studies – Foundation fosters business literacy that will ensure learners are better placed now and in the future to actively participate in small business. This will enable them to contribute to the development of a prosperous and sustainable economy and to secure their own financial wellbeing.

## Aims

Business Studies – Foundation Level 2 aims to develop learners’:

- *Business knowledge:* Learners define and use basic business terms, concepts and processes as they describe small business situations
- *Business reasoning:* Learners apply appropriate business and financial models, concepts and processes to interpret business information and record and report financial information for small business purposes
- *Business decision-making:* Learners examine business situations and the forces that influence the operation of small businesses to determine the validity of management actions and to formulate recommendations to improve business performance
- *Business communication:* Learners select and use business terms and language conventions to convey meaning to stakeholders
- *Business inquiry skills:* Learners develop skills in the inquiry method of learning as they apply them to the preparation of a business plan.

## Learning Outcomes

On successful completion of this course, learners will be able to:

1. identify the nature, role and structure of small business in the Australian economy
2. identify motivations for establishing a small business, the reasons for its success and failure and the qualities of a successful entrepreneur
3. identify how marketing, accounting and finance are important to successfully operating a small business
4. apply the principles of the cash-based accounting system to record and report financial data for small business purposes
5. apply models, techniques and processes to provide data and information for making small business decisions
6. offer evidence-based solutions to small business problems and make recommendations to improve small business performance
7. communicate in ways that are suitable for small business and for purpose and audience, including the use of appropriate information and communication technologies
8. apply relevant business ideas, practices, processes and concepts and inquiry skills to prepare a business plan
9. identify the social, environmental and ethical impacts of business and enterprise practices.

## Pathways

Business Studies – Foundation Level 2 serves as a pathway into the following TASC accredited courses: Accounting Level 3, Business Studies Level 3 and Economics Level 3. It complements vocational education and training (VET) pathways in Business Services, such as Certificate III in Micro Business (BSB30315).

This course also acts as a pathway to further education, training and employment for careers in which an understanding of the world of business is a key element, such as owning or working in small-to-medium enterprises in a number of capacities.

## Course Size And Complexity

This course has a complexity level of 2.

At Level 2, the learner is expected to carry out tasks and activities that involve a range of knowledge and skills, including some basic theoretical and/or technical knowledge and skills. Limited judgement is required, such as making an appropriate selection from a range of given rules, guidelines or procedures. VET competencies at this level are often those characteristic of an AQF Certificate II.

This course has a size value of 15.

## Course Delivery

- It is recommended that Units 1 – 5 be taught sequentially. Unit 6 may be introduced during Unit 1
- A Glossary of terms used in the standards and throughout the course document is provided in Appendix 1
- Templates for the manual recording and reporting of financial information are provided in Appendices 2 – 4
- Formulae to be used in this course are provided in Appendix 5.

## Course Requirements

The storing, processing and accessing of digital data and information are now essential parts of current business practice. The use of spreadsheets to record and report financial data and information and to perform calculations and create charts to assist with the decision-making process associated with Unit 5: Operating a Small Business – Accounting and Finance is required.

## Course Content

Business Studies – Foundation Level 2 is divided into six (6) **compulsory** units of study:

Unit 1: An Introduction to the Business Environment (25 hours)

Unit 2: Business in the Economy (25 hours)

Unit 3: Establishing a Small Business (20 hours)

#### UNIT 6: BUSINESS INQUIRY: PREPARING A BUSINESS PLAN (20 HOURS)

This unit focuses on learners combining their knowledge and skills to develop a business plan for a business idea of their own. The idea may take the form of a product or service. Learners may complete this inquiry on their own or in groups of up to three (3). They will apply the inquiry approach to the preparation of their business plan. The inquiry approach can be represented by the following diagram:

## THE BUSINESS PLAN

Focus	A business plan is central to the strategic development of a start-up business for an innovative and enterprising opportunity.
Task	Learners are to prepare a written business plan for their idea. They are to use the key components and guidelines below to assist in their research and report preparation.
Key Components	<p>The idea – the product or service, its potential and the prime function of the business</p> <p>Business location</p> <p>Mission statement</p> <p>Ownership structure</p> <p>Staffing requirements – the number of people required, and the essential skills and training</p> <p>Market analysis – the competition, the marketing strategies to be employed, and the pricing details</p> <p>Financial plan – establishment costs and how this will be financed and the cash flow projections (budget) for the first 12 months</p> <p>Future prospects.</p>

### Work Requirements

Guidelines	<p>The business plan must be presented as a written report of between 1000–3000 words. It may be complemented by an oral/signed presentation of 5–10 minutes or the equivalent in multimodal form.</p> <ul style="list-style-type: none"> <li>• Sub-headings may be used</li> <li>• Bullet points, diagrams and charts are appropriate</li> <li>• Definition of terms or appendices are inappropriate.</li> </ul> <p>Appropriate referencing must be used. See TASC's <a href="#">Authenticity and Academic Integrity: A Guide</a>.</p>

### Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating 'A', 'B', or 'C', according to the outcomes specified in the standards section of the course.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in quality assurance processes specified by TASC to ensure provider validity and comparability of standards across all awards. To learn more, see TASC's [quality assurance processes](#) and [assessment](#) information.

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

## Quality Assurance Process

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

**Process** – TASC will verify that the provider's course delivery and assessment standards meet the course requirements and community expectations for fairness, integrity and validity of qualifications that TASC issues. This will involve checking:

- learner attendance records; and
- course delivery plans (the sequence of course delivery/tasks and when assessments take place):
  - assessment instruments and rubrics (the 'rules' or marking guide used to judge achievement)
  - class records of assessment
  - examples of learner work that demonstrate the use of the marking guide
  - samples of current learner's work, including that related to any work requirements articulated in the course document.

This process may also include interviews with past and present learners. It will be scheduled by TASC using a risk-based approach.

## Course Evaluation

The Department of Education's Curriculum Services will develop and regularly revise the curriculum. This evaluation will be informed by the experience of the course's implementation, delivery and assessment.

In addition, stakeholders may request Curriculum Services to review a particular aspect of an accredited course.

Requests for amendments to an accredited course will be forwarded by Curriculum Services to the Office of TASC for formal consideration.

Such requests for amendment will be considered in terms of the likely improvements to the outcomes for learners, possible consequences for delivery and assessment of the course, and alignment with Australian Curriculum materials.

A course is formally analysed prior to the expiry of its accreditation as part of the process to develop specifications to guide the development of any replacement course.

## Course Developer

The Department of Education acknowledges the significant leadership of Dr Stuart Crispin (University of Tasmania), Neesha-Marie Hartog (Hobart College), Bernd Meyer (Launceston Church Grammar School) and Jodie Schafferius (The Hutchins School) in the development of this course.
