Dance The Basic Moves is a Level 1 course requiring no previous experience

Learners develop basic movement skills and an understanding of basic movement principles in a primarily teacher led environment. Responding to the Dance work of others forms the theory component. This course may provide a pathway to Dance Level 2.

Rationale

Dance the Basic Moves Level 1 is the first of a suite of three Dance courses. It provides learners with little or no previous experience, with a basic understanding of Dance as an art form and avenue for self-expression.

This course is designed to assist learners realise personal benefits such as: developing health and well-being skills; personal hygiene; fitness; intra/inter personal skills and social interaction skills; in addition to basic dance skills and knowledge.

Learners working at this level will require guidance in generating their own movements. Typically, learners will require supportive direction. Tasks will be of a basic nature, and learners will benefit from repetition to enhance and develop dance movements and sequences.

Dance the Basic Moves allows learners to develop their confidence in a non-threatening and inclusive environment in which they can enjoy participation in dance-related activities and events.

This course also caters for learners with specific learning needs, which may include those with intellectual and/or physical disabilities. Some learners will complete this course as part of a specific work and/or support program.

Learning Outcomes

On successful completion of this course, learners will be able to:

- create simple dance actions and movements
- recall simple dance phrases and sequences
- apply basic safe dance practices
- use some basic dance terminology
- identify different dance styles and genres
- be able to work individually and in groups as directed
- have self-confidence sufficient to perform to others
- understand how dance can be a means to healthy living and personal fitness
- respond to and compare the dance work of others.

Access

This course requires learners to work in groups.

Learners can access this course supported by a teacher aide, disability support worker or peer mentor.

Learners with physical disabilities can access this course and receive an award commensurate with their ability to successfully meet the Criteria and Standards. For some learners, this may be a Preliminary Achievement (PA) or a Satisfactory Achievement (SA).

Pathways

Dance the Basic Moves is the first course in a suite of three dance courses.

Some learners may complete this course as a stand-alone course, with no intended pathway to further Dance study.

For learners with a more focussed pathway, successful completion of this course may lead to a variety of senior secondary courses which include Dance Level 2, Drama - Foundation Level 2 and other creative and performing arts courses.

Resource Requirements

This course requires access to a suitable and safe space for movement activities and dance work, free from potentially hazardous obstacles. The space must be adequate in size and ventilation to cater for the movement activities of individuals and small groups, and whole class work as required.

Access to audio equipment will be required (e.g. CD players, MP3s, amplification devices).

Access to technology equipment for the viewing of recorded dance works will be required (e.g. DVDs, YouTube, videos, data projectors, laptops, personal computers).

Course Size And Complexity

This course has a complexity level of 1.

At Level 1, the learner is expected to carry out tasks and activities that draw on a limited range of knowledge and skills. The tasks and activities generally have a substantial repetitive aspect to them. Minimum judgement is needed as there are usually very clear rules, guidelines or procedures to be followed. VET competencies at this level are often those characteristic of an AQF Certificate I.

This course has a size value of 10.

Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating 'A', 'B', or 'C', according to the outcomes specified in the standards section of the course.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in quality assurance processes specified by TASC to ensure provider validity and comparability of standards across all awards. To learn more, see TASC's [quality assurance processes and assessment information](#).

Internal assessment of all criteria will be made by the provider. Providers will report the learner's rating for each criterion to TASC.

Quality Assurance Process

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

Process- Each provider is responsible for ensuring the integrity and validity of their assessment results against the requirements of the course, including standards, and for maintaining records and documentation that will demonstrate the integrity, accuracy and validity of the award decisions they make each year.

Where TASC identifies sufficient potential for concern about the integrity or validity of a provider's award decisions it will undertake an investigation. After such an investigation is completed, TASC may take action under Section 33 of the *Office of Tasmanian Assessment, Standards and Certification Act 2003* as it considers appropriate, including but not limited to:

- giving the school/college a direction in relation to the provision or assessment of the course (section 33 (2))
- refusing to accept results for this course from the provider (section 33 (4)).
