Music Ensemble is a Level 2 course which requires participants to have the vocal or instrumental competence to play/perform as a member of an ensemble

Instrumental skills for ensemble playing, Responding to Musical Direction, Rehearsal and Performance and Care and Safe Practice make up the four components of the course. Music Ensemble provides an extension opportunity for learners studying other music courses or for learners who wish to have their participation in a school based ensemble recognised.

Rationale

Practicing, rehearsing and presenting music as a member of an ensemble is an integral component of music education. Learners develop music literacy and performance skills, and learn to articulate their ideas through rehearsal discussions.

Though not a requirement, performance of Australian compositions and arrangements are encouraged, including original compositions of ensemble members. A knowledge and understanding of Australian music enables learners to participate more effectively in, and contribute to, diverse aspects of Australian cultural life.

Aims

The collaborative learning style of Music Ensemble aims to engender skills of adaptability, creative thinking, and self-discipline through playing, using recognised repertoire and instrumentation, and developing skills and techniques appropriate to different genres and/or styles.

Music Ensemble aims to foster resilience, cooperation and positive team membership. Once learned, these attributes may be applied to a range of music groups and to other contexts and environments such as the work place and community organisations.

Learning Outcomes

On successful completion of this course, learners will be able to:

- work collaboratively as a member of an ensemble to prepare for and present ensemble music performances
- use musical instruments, music ensemble equipment and rehearsal and performance space in an appropriate and safe manner
- respond appropriately to direction
- apply music elements* when playing/singing in a music ensemble
- play/sing proficiently in a music ensemble.

* music elements: intonation; tuning; blend and balance; tone; style; dynamics; articulation; phrasing; expression; posture.

Access

Learners will have instrumental/vocal competency sufficient to play as a member of an ensemble.

Learners are required to work as a member of a musical ensemble (i.e. as a member of a group).

Pathways

Successful completion of this course may lead to/enhance learning in a range of TASC accredited courses such as: Studies in Music Level 2; and Music Level 3.

Resource Requirements

Access to suitable rehearsal spaces (e.g. rehearsal rooms, rehearsal suites) and performance spaces (e.g. music studios, stages, halls) is required.

The provider will determine to what extent access to instrumental tuition is required for each learner.

Music playing equipment may be provided as required (e.g. sound systems, CD players, DVD players).

Course Size And Complexity

This course has a complexity level of 2.

At Level 2, the learner is expected to carry out tasks and activities that involve a range of knowledge and skills, including some basic theoretical and/or technical knowledge and skills. Limited judgement is required, such as making an appropriate selection from a range of given rules, guidelines or procedures. VET competencies at this level are often those characteristic of an AQF Certificate II.

This course has a size value of 5.

Course Description

This course enables learners to develop as musicians through engagement and collaboration in the rehearsal process and performance, in at least **one** (1) music ensemble.

The range of ensembles is wide and varied, demonstrating diversity of genre, instrumentation and technical requirements.

The following list, though not exclusive, is indicative of ensembles:

Ensembles	
Concert Band	Chamber Ensemble
Symphonic Band	Jazz Ensemble

Rather the parts and their content will be delivered and assessed concurrently and as appropriate to the progress of learners through the process of musical practice, ensemble rehearsal and performance.

PART A INSTRUMENTAL SKILLS FOR ENSEMBLE PLAYING

Being an effective member of an ensemble requires the learner to be aware of, and attend to, interpretation and appropriate playing of musical resources (e.g. scores, charts, tabs).

The following content will be covered:

- intonation
- tuning
- blend and balance
- performing with appropriate tone (sensitively to ensemble sound and style)
- style
- dynamics
- articulation
- phrasing
- expression
- correct posture.

- reliability in attending scheduled rehearsals
- punctuality to rehearsals and performance calls
- meeting performance obligations
- appropriate rehearsal and performance etiquette
- co-operation with others in rehearsals and performances (e.g. instructors, directors, stage managers)

Ensemble members will learn about the appropriate care of musical equipment and the significance of such care. They will take appropriate care of their instrument and equipment (such as music scores and sound systems). Ensemble members will learn about work place safety issues related to their rehearsal and performance spaces, and follow directions and procedures concerning work place safety in such spaces.

- appropriate care of instrument(s)
- appropriate care of musical scores and equipment

- safe use of musical equipment (e.g. power supply to sound reinforcement systems)
- safe and appropriate use of rehearsal and performance spaces (e.g. security of spaces, safe use of stairs, risers and platforms)
- follow direction and procedures related to work place safety in rehearsal and performance spaces, and know to whom issues or dangers are reported.

Work Requirements

Presenting a performance is the culmination of practice and rehearsal, and is a focus and goal for Music Ensemble.

Examples of performances could include (but are not restricted to):

- eisteddfods
- competitions
- concerts in a variety of parent, community and school settings (e.g. assemblies, concerts, school functions and events)

Assessment

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to TASC will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating of 'C' (satisfactory standard) or 'A' (high standard) according to the outcomes specified in the standards section of the course document.

A 't' notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the 'C' rating. The 't' notation is not described in course standards.

A 'z' notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in quality assurance processes specified by TASC to ensure provider validity and comparability of standards across all awards. To learn more, see TASC's [quality assurance](#) processes and [assessment](#) information.

Internal assessment of all criteria will be made by the provider. Assessment processes must gather evidence that clearly shows the match between individual learner performance, the standards of the course and the learner's award. Providers will report the learner's rating for each criterion to TASC.

Quality Assurance Process

The following processes will be facilitated by TASC to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

Process – Each provider is responsible for ensuring the integrity and validity of their assessment results against the requirements of the course, including standards, and for maintaining records and documentation that will demonstrate the integrity, accuracy and validity of the award decisions they make each year.

Where TASC identifies sufficient potential for concern about the integrity or validity of a provider's award decisions it will undertake an investigation. After such an investigation is completed, TASC may take action under Section 33 of the *Office of Tasmanian Assessment, Standards and Certification Act 2003* as it considers appropriate, including but not limited to:

- giving the school/college a direction in relation to the provision or assessment of the course (section 33 (2))
- refusing to accept results for this course from the provider (section 33 (4)).
